## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### Cautionary Statement

*Statements in the Management Discussion and Analysis which describe the Company's objectives, projections, estimates, expectations or predictions may be considered to be 'forward looking statements' within the meaning of applicable laws and regulations. These statements are based on certain assumptions and expectations of future events. Actual results could however materially differ from those expressed or implied. Important developments that could affect the Company's operations include a downtrend in the real estate sector, significant changes in political and economic environment in India or key financial markets abroad, tax laws, litigation, labour relations, interest and other costs.*

### Industry Structure & Developments

Real Estate is one of the key driving factors behind the growth of the Indian Economy and plays a pivotal role in the nation's GDP growth. It is among the most recognized sectors globally. It creates millions of direct and indirect employment opportunities and supports the country's development. It consists of 4 sub-sectors – Housing, Commercial, Retail, and Hospitality. The growth of this sector is well complemented by the growth of the corporate sector and the demand for office space as well as urban and semi-urban houses. The real estate sector of India ranks 3rd among the 14 major sectors that have a direct and indirect impact on all sectors of the economy. Sectors such as IT and ITeS, retail, consulting and e-commerce have registered high demand for office space in recent times. In recent times, the sector has emerged as one of the highly profitable investment alternative for both domestic and foreign investors.

The year 2019 has been a period of ups and downs for the Indian Real Estate Sector. There have been various policy and taxation related announcements in the last year. The market experienced the impact of the ongoing Non-Banking Financial Company (NBFC) crisis which resulted in a liquidity crisis and a slow pace of recovery in sales. The growth of the Indian Real Estate Market in 2019 has been driven by numerous factors including technology, improved ease of doing business, dust settling post the implementation of reforms such as GST and RERA, and demand-supply dynamics, among others. The commercial segment saw most of the investment flowing in as the year comes to an end. Commercial office space continued to be the most sought-after asset class.

The Coronavirus outbreak, which originated in China, has infected lakhs of people worldwide. Simultaneously, it has disrupted industries, trade, and business cycles, thus halting global economic activity significantly. Indian real estate sector, which was already struggling to re-emerge from the past turbulence of structural changes, policy reforms, and the liquidity crisis, is now set to witness another major fallout.

The Company's projects keep in view current requirements of major corporates in terms of quality construction, state of art facilities, large working floor plates and the best in class maintenance and service standards with respect to safety and security. The Company always believes and strives to provide environment friendly and energy efficient office spaces in its IT Parks. It is very essential to ensure that MNC's and other end users occupying the premises, feel comfortable while operating from these IT Parks.

'Express Trade Towers 3' project located in Sector 34, EHTP, Gurugram on a land admeasuring 3,948 sq. m. is an office

complex having two basements for dedicated parking and seven floors of office area. The Company is exploring various opportunities for selling / leasing the complex in the best interest of the Company.

### **Opportunities & Threats**

As we approach the halfway mark of 2020, the dark cloud of COVID-19 looms over businesses across the country. This persistent outbreak's most notable victim is the commercial real estate sector, which has not only suffocated cash flow impacting the ability of businesses to pay rents but also severely hindered the supply for construction and repairs across the country.

This, coupled with the fear of a global recession, has left the Indian real estate sector in a climate of uncertainty, as investors grapple with the new environment and reassess their investment strategy. In recent years, commercial real estate has emerged as the favored investment option by institutional investors, owing to their higher per annum yield.

Unfortunately, 2020 seems to be different. Country-wide lockdown until mid-April has halted all activities. As evident, project sites are shut, site visits have stopped, and construction activity has come to a grinding halt, eventually impacting housing sales. Also, developers have deferred their new project launches for an unknown period

Besides residential segment, commercial real estate is also not immune to the Covid-19 fallout. Corporate occupiers are seen delaying their leasing decisions and still several MNCs and businesses are testing new waters of the work-from-home option. If proved successful, it could impact leasing activities in the future.

This vigorous run of office real estate over last three years is expected to witness some deceleration in 2020. Shrinking Indian economic growth coupled with global economies' sharp reaction to the ongoing COVID-19 pandemic will certainly impact Indian office segment.

The Indian real estate sector needs to exhibit immense resilience to overcome the current situation imposed by the novel coronavirus. The sector has been successful in overcoming

many challenges in the past and has stood up in the most turbulent times. Unfortunately, the testing period and the trials keep coming back at regular intervals and it is surely going to hurt the sector but may also fortify for the years to come.

Amidst the COVID-19 uncertainty, it is anticipated that the forthcoming period of the current year may witness a further decline in FDI inflows into the sector.

In a nutshell, COVID-19 outbreak has added enormous pressure to already delicately poised Indian retail sector. New completions will be deferred, leasing activity to be delayed, rentals may come under pressure, vacancies may see a momentary rise and the sector's overall growth rate will be slowed down.

In the current COVID-19 pandemic situation, the governments and central banks across the world are introducing innovative measures and stimulus packages to ensure that the economy keeps on ticking during this tough time.

We believe that the Indian real estate sector will emerge stronger, healthier and capable of long periods of sustained growth, provided adequate policy/regulatory support.

Our business is heavily dependent on the performance of the real estate market and the availability of real estate financing in India. Further our plans to develop IT Park and SEZ are subject to a number of contingencies like applicability of various laws, approval of government etc.

### **Outlook**

While the sector was on a growth trajectory since the last few years and was likely to emerge stronger than before, the current coronavirus lockdown has surely put brakes on its growth momentum.

While the business situation may improve in the months to come, the recovery will surely

be gradual and not steep and the entire impact of this pandemic and the likely future growth path can only be assessed once the situation returns to normalcy.

The Company is committed to enhance transparency and establish standards for India's real estate industry while safeguarding the interests of the shareholding community. The Company will continue to maintain the highest standards of professionalism, ethics, quality and customer service while meeting its vision of continuing growth by leading National and International Standards and Ethical means, in harmony with the environment, ensuring customer delight, business associates trust and social responsibility.

### **Risks & Concern**

Delay in construction and absence of labour and material will result in a significant decline in supply and is estimated to be lower by 15% to 30% over Pre-Covid estimate.

Amidst the pandemic and the global health crisis, the demand for office space is likely to drop. As many occupiers may not be able to assess the impact until the situation is resolved, they will reassess their position. While there will be some significant slowdown in their businesses, the expansion or consolidation plans may also be shelved.

Given the sluggish business environment and that is likely to be prevalent post the COVID-19 outbreak period, it will put rentals under tremendous pressure.

The corporate world may be forced to revisit their requirements keeping personal health and hygiene as the topmost priority for their assets and employees.

The Company is operating in an extremely competitive environment. As it gets into the expansion mode, it is poised to exploit several new opportunities. The Company ensures that the risks it undertakes are commensurate with better returns. To good hold in this sector, the Company has to be updated on latest technical and market trend. Profitability of each real estate project is subject to risks of mis-pricing, cost escalation, adverse conditions, geological conditions, downtrend in the real estate sector, significant changes in political and economic environment in India, management of specification changes and the outcome of claims on competitions. The business is affected by the rise and fall in the prices of requisite raw materials as their prices are highly volatile in nature. However, the Company aims to understand, measure and monitor the various risks to which it is exposed and to ensure that it adheres, as far as reasonably and practically possible, to the policies and procedures established by it to mitigate these risks.

#### **Internal Control Systems and their Adequacy**

The Internal Control Systems and procedure are adequate and commensurate with the size of the Company. The system focuses on optimum utilization of resources and adequate protection of Company's assets. These business control procedures ensure efficient use and protection of the resources and compliance of laws and regulations. The internal control is designed to ensure that financial and other records are reliable for preparing financial information and for maintaining accountability of assets. The Company has continued its efforts to align all its processes and controls with global best practices in these areas as well.

#### **Financial Performance**

The financial statements have been prepared in compliance with the requirements of the Companies Act, 2013 and as per Indian Accounting Standards (IND AS) for the year ended March 31, 2020.

Total Income and Operating Profit (Loss) for the year under review amounted to Rs. 3.60 crores and Rs. 1.00 crore respectively as compared to Rs. 2.97 crores and Rs. (1.07) crore, in the previous financial year.

The Profit (Loss) before Tax and Profit (Loss) after Tax for the year under review amounted to Rs. (1.33) crores and Rs. (1.08) crores respectively as compared to Rs. (1.52) crores and Rs. (3.24) crores, in the previous financial year.

#### **Human Resource Development**

In the current economic scenario, effective Human Resource Management has become an area of concern. The Company recognizes the importance and contribution of its human resources for its growth and development and constantly endeavors to nurture and groom its people.

There are cordial relations between the management and the employees. The Company believes in enhancing the competencies of employees to create a high performing and innovative organization.

## INDEPENDENT AUDITOR'S REPORT

To the Members of ETT Limited

### Report on the Audit of the Financial Statements

#### Opinion

1. We have audited the financial statements of ETT Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2020, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and Notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, the **LOSS** and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### Basis for Opinion

3. We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

#### Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
5. We have determined the matters described below to be the key audit matters to be communicated in our report.

S No	Key Audit Matter	How our audit addressed the Key Audit Matter
i)	<p><b>Valuation of current financial investments</b></p> <p>The Company has made short term investments in quoted shares and exchange traded funds during the year which have been valued at ₹ 139.66 Lacs as at 31 March 2020 (2019: ₹ 0.16 Lacs). See Note 1(c) for the accounting policy and Note 7 to the financial statements.</p> <p>We identified the valuation of current financial investments as a key audit matter due to the significance of the balance to the financial statements as a whole, and due to the significant element of judgement and estimation associated with determination of the fair value.</p>	<p>We reviewed management's assessment of the values quoted shares and exchange traded funds and the unquoted shares. We also considered the adequacy of the disclosures in the financial statements in respect of this matter. The fair value of quoted shares and exchange traded funds have been categorised as level 1 and the unquoted shares have been categorised as level 3.</p> <p>Based on our procedures, we found management's valuation to be appropriate. We also found the disclosures of current financial investments in the financial statements to be adequate.</p>

#### Information Other than the Financial Statements and Auditor's Report Thereon

6. The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report, Report on Corporate Governance, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### **Management's Responsibility for the Financial Statements**

7. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.
8. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
9. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

10. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
11. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
  - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
  - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
  - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
  - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

12. We communicated with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

15. As required by Section 197(16) of the Act, we report that the Company did not pay any remuneration to its directors during the year.
16. As required by the Companies (Auditor's Report) Order, 2016 (the 'Order') issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order.
17. Further to our comments in Annexure A, as required by Section 143(3) of the Act, we report that:

**‘Annexure – B’ To the Independent Auditors’ Report**

*(Referred to in paragraph 17(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of ETT Limited of even date)*

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls with reference to the financial statements of **ETT Limited** (“the Company”) as of 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**1. Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal financial controls with reference to the financial statements issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**2. Auditors’ Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to the financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal financial controls with reference to the financial statements (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the financial statements was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls with reference to the financial statements included obtaining an understanding of internal financial controls with reference to the financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

**3. Meaning of Internal financial controls with reference to the financial statements**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- iii) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

**(a) Inherent Limitations of Internal financial controls with reference to the financial statements**

Because of the inherent limitations of internal financial controls with reference to the financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the financial statements to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**(b) Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all

material respects, an adequate internal financial controls system over financial reporting and such internal financial controls with reference to the financial statements were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal financial controls with reference to the financial statements issued by the Institute of Chartered Accountants of India.

**NOTES FORMING PART OF FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020**

**1. STATEMENT OF COMPLIANCE**

These financial statements have been prepared in accordance with the Indian Accounting Standards as per the companies (IND AS) rules, 2015(as amended) notified under section 133 of the Companies Act, 2013 (the Act) & other relevant provision of the Act.

**a. BASIS OF PREPARATION**

The financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies.

**b. FUNCTIONAL AND PRESENTATION CURRENCY**

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All the amounts have been rounded off to Lakhs unless otherwise indicated.

**c. SIGNIFICANT ACCOUNTING POLICIES**

**Fair Value**

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

**Fair Value Measurement**

Company's accounting policies and disclosures required fair value measurement for both financial and non-financial assets and liabilities.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement, as under:

- i. Level I - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ii. Level II - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- iii. Level III - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization, based on the lowest level input that is significant to the fair value measurement, at the end of each reporting period.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimising the use of unobservable inputs. External valuers are involved for valuation of significant assets and liabilities. Involvement of external valuers is decided upon annually by the Management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The Management decides, after discussions with the Company's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the Management analysis the movement in the value of assets and liabilities, which are required to be re-measured or re-assessed as per the Company's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

### **Current Versus Non-Current Classification**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset or liability is treated as current if it satisfies any of the following condition:

- i. the asset/liability is expected to be realised/settled in normal operating cycle;
- ii. the asset is intended for sale or consumption;
- iii. the asset/liability is held primarily for the purpose of trading;
- iv. the asset/liability is expected to be realised/settled within twelve months after the reporting period;
- v. the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period;
- vi. in the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

All other assets and liabilities are classified as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

### **Use of Estimates and Judgements**

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and the accompanying disclosures and disclosure of contingent liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis and are based on historical experience and other factors, including expectation of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances. The revisions in accounting estimates and assumptions are recognised prospectively. Detailed information about estimates and judgements is included in Note 35.

### **Foreign Currency Transactions**

Foreign currency transactions are translated into the functional currency at the exchange rates on the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Exchange difference arising on settlement or translation of monetary items is recognised in the Statement of Profit and Loss on net basis.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item i.e., translation differences on items whose fair value gain or loss is recognised in OCI or Statement of Profit and Loss are also recognised in OCI or Statement of Profit and Loss, respectively.

### **Property, Plant & Equipment**

#### **Recognition & Measurement**

All items of property, plant and equipment (PPE) are stated at cost less accumulated depreciation and impairment, (Except Leasehold Land) if any. Cost of an item of PPE includes its purchase cost, non-refundable taxes and duties, directly attributable cost of bringing the item to its working condition for its intended use and borrowing cost if the recognition criteria is met. Leasehold land is stated at original cost value.

Subsequent costs are included in an item of PPE's carrying value or recognised as a separate item, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Capital work-in-progress is stated at cost.

An item of PPE or any significant part thereof is de-recognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss on de-recognition of an item of PPE is recognised in Statement of Profit and Loss.

Depreciation on Property, Plant and Equipment's is provided on the Written Down Value (WDV) Method over the useful lives of assets prescribed in Schedule II of the Companies Act, 2013. Depreciation for assets purchased/ sold during a period is provided on Pro-rata basis. Amortization has not been provided on the leasehold land.

### **Investment Property**

#### **Recognition and initial measurement**

Investment property are property held to earn rentals or for capital appreciation, or both. Investment Property are measured initially at their cost of acquisition. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company. All other repair and maintenance costs are recognised in statement of profit and loss as incurred

#### **Subsequent measurement (depreciation and useful lives)**

Investment property are subsequently measured at cost less accumulated depreciation and impairment losses (Except Freehold land). Freehold land is stated at cost. Depreciation on Investment Property is provided on the Written Down Value (WDV) Method, computed on the basis of useful lives prescribed in Schedule II to the Act.

The residual values, useful lives and method of depreciation are reviewed at the end of each financial year.

### **Revenue Recognition**

Effective April 1, 2018, Company adopted IND AS-115, Revenue from Contracts with Customers, using the Cumulative catch up transition method applied, the comparatives have not been retrospectively adjusted. The Effect on the adoption of IND-115 was no impact. The adoption of IND AS 115 required enhanced disclosures about the nature, amount, timing and uncurling of revenue and cash flows arising from the entity contracts with customers

#### Rental income

Rental income is recognised on a straight-line basis over the terms of the lease, except for contingent rental income which is recognised when it arises and where scheduled increase in rent compensates the lessor for expected inflationary costs. Parking income and fit out rental income is recognised instatement of profit and loss on accrual basis.

#### Service receipts

Revenue is recognised as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognised as unbilled revenue. Revenue from fixed price, fixed time frame contracts, where the performance obligations are satisfied over time and where is no uncertainty as to measurement or collectability of consideration, is recognised.

#### Interest income

Interest income is recorded on accrual basis using the effective interest rate (EIR) method.

#### Dividend income

Dividend income is recognised at the time when the right to receive is established by the reporting date.

### **INVENTORIES**

Items of Inventory are valued at lower of cost and estimated net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

The Company do not carry any business activities during the year which would have required any inventories. However, the company holds certain stock of Spares and diesel meant for running and maintenance of generator and not as part of trading activities.

## **FINANCIAL INSTRUMENTS**

A Financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### **I. Financial Assets**

Initial recognition and measurement:

The Company recognizes a financial asset in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All Financial assets are recognised initially at fair value, plus in the case of financial assets not recorded at fair value through profit or losses (FVTPL), transaction costs that are attributable to the acquisition of the financial asset.

Where the fair value of a Financial asset at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognised as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognised as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the Financial asset.

However, trade receivables that do not contain a significant Financing component are measured at transaction price.

### **Subsequent measurement:**

For subsequent measurement, the Company classifies a Financial asset in accordance with the below criteria:

- a. The Company's business model for managing the Financial asset and
- b. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- i. Financial assets measured at amortized cost
- ii. Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iii. Financial assets measured at fair value through profit or loss (FVTPL)

#### **i. Financial assets measured at amortized cost:**

A Financial asset is measured at the amortized cost if both the following conditions are met:

- a) The Company's business model objective for managing the Financial asset is to hold Financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to certain investment in debt instruments. Such Financial assets are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognised as interest income over the relevant period of the financial asset. The same is included under other income in the statement of Profit and Loss.

The amortized cost of a financial asset is also adjusted for loss allowance, if any.

#### **ii. Financial assets measured at FVTOCI:**

A Financial asset is measured at FVTOCI if both of the following conditions are met:

- a) The Company's business model objective for managing the Financial asset is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to certain investments in equity instruments such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognised in the Other Comprehensive Income (OCI). However, the Company recognizes interest income and impairment losses and its reversals in the Statement of Profit and Loss.

On De-recognition of such financial assets, cumulative gain or loss previously recognised in OCI is reclassified from equity to Statement of Profit and Loss.

### **iii. Financial assets measured at FVTPL:**

A Financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company (Refer Note 31 for further details). Such Financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognised in the Statement of Profit and Loss.

A Financial asset (or, where applicable, a part of a Financial asset or part of a group of similar Financial assets) is derecognised (i.e. removed from the Company's Balance Sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expire;
- ii. The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;
- iii. The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the Financial asset);
- iv. The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability. The Financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On De-recognition of a Financial asset, (except as mentioned in ii above for Financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognised in the Statement of Profit and Loss.

### **Impairment of financial assets:**

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following:

- i) Trade receivables
- ii) Financial assets measured at amortized cost (other than trade receivables)
- iii) Financial assets measured at fair value through other comprehensive income (FVTOCI)

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognised as loss allowance.

In case of other assets (listed as ii and iii above), the Company determines if there has been a significant increase in credit risk of the Financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognised as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognised as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months from the reporting date.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

As a practical expedient, the Company uses a provision matrix to measure lifetime ECL on its portfolio of trade receivables. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates. At each reporting date, the historically observed default rates and changes in the forward-looking estimates are updated.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/ expense in the Statement of Profit and Loss under the head 'Other expenses'.

## **II. Financial Liabilities**

**Initial recognition and measurement:**

The Company recognizes a financial liability in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All Financial liabilities are recognised initially at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial liability.

Where the fair value of a Financial liability at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognised as a gain or loss in the Statement of Profit and Loss at initial recognition if the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using a level 1 or level 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognised as a gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the Financial liability.

### **Subsequent measurement:**

All Financial liabilities of the Company are subsequently measured at amortised cost using the effective interest method.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortisation using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the Financial liability over the relevant period of the Financial liability to arrive at the amortised cost at each reporting date. The corresponding effect of the amortisation under effective interest method is recognised as interest expense over the relevant period of the financial liability. The same is included under Finance cost in the Statement of Profit and Loss.

### **De-recognition:**

A Financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing Financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the De-recognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability de-recognised and the consideration paid is recognised in the Statement of Profit and Loss.

### **Impairment**

Assets that have an indefinite useful life are not subject to amortisation and are tested for impairment annually and whenever there is an indication that the asset may be impaired.

Assets that are subject to depreciation and amortization are reviewed for impairment, whenever events or changes in circumstances indicate that carrying amount may not be recoverable. Such circumstances include, though are not limited to, significant or sustained decline in revenues or earnings and material adverse changes in the economic environment.

An impairment loss is recognised whenever the carrying amount of an asset or its cash generating unit (CGU) exceeds its recoverable amount. The recoverable amount of an asset is the greater of its fair value less cost to sell and value in use. To calculate value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market rates and the risk specific to the asset. For an asset that does not generate

largely independent cash inflows, the recoverable amount is determined for the CGU to which the asset belongs. Fair value less cost to sell is the best estimate of the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal.

Impairment losses, if any, are recognised in the Statement of Profit and Loss and included in depreciation and amortisation expense. Impairment losses are reversed in the Statement of Profit and Loss only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

## **Income Tax**

Income Tax comprises current and deferred tax and is recognised in Statement of Profit and Loss except to the extent that it relates to an item recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or in equity as the case may be.

### **I. Current Tax**

Current tax comprises the expected tax payable on the taxable income for the year and any adjustments to the tax payable in respect of previous years. It is measured using tax rates and tax laws enacted or substantively enacted by the reporting date.

### **II. Deferred Tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax asset is also recognised in respect of carried forward tax losses and unused tax credits.

Deferred Tax assets are recognised to the extent that it is probable that future taxable amounts will be available to utilise those temporary differences, carried forward tax losses and unused tax credits.

Deferred Tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the tax laws that have been enacted or substantively enacted by the reporting date.

Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

## **Employee Benefits**

### **I. Defined contribution plan**

Provident Fund, a defined contribution plan, is a post-employment benefit plan under which the Company pays contributions into a separate entity and has no legal or constructive obligation to pay further amounts. The Company recognizes the contributions payable towards the provident fund as an expense in the Statement of Profit and Loss in the periods during which the related services are rendered by employees.

### **II. Defined benefit plan**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company has unfunded Gratuity liability towards this which is provided on the basis of actuarial valuation made by an external valuer at the end of each financial year using the projected unit credit method and is contributed to the Gratuity Fund formed by the company.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling (if any, excluding interest) are immediately recognised in the balance sheet with corresponding debit or credit to Other Equity through OCI. Re-measurements are not classified to profit or loss in subsequent periods.

Net interest and changes in the present value of defined benefit obligation resulting from plan amendments or curtailments are recognised in profit or loss.

### **III. Other long term employee benefits**

The liabilities for earned leave are measured and provided on the basis of actuarial valuation made by an external valuer at the end of each financial year using the projected unit credit method. Re-measurement gains or losses are recognised in Statement of Profit and Loss in the period in which they arise.

### **Borrowing Costs**

Borrowing costs consists of interest and other costs incurred in connection with the borrowing of funds. Borrowing costs attributable to the acquisition or construction of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of the asset. Income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowings costs eligible for capitalisation. All other borrowing costs are expensed in the period in which they are incurred. Transaction costs in respect of long-term borrowings are amortised over the tenor of respective loans using effective interest method. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

### **Earnings per Share**

Basic earnings per share is calculated by dividing the net profit or loss before OCI for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

Diluted earnings per share adjusts the figures used in determination of basic earnings per share to take into account the post tax effect of finance costs associated with dilutive potential equity shares and the weighted average number of additional equity shares that would have been outstanding assuming the issue of all dilutive potential equity shares.

### **Cash and Cash Equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short term deposits with remaining maturity of 12 months or less, which are subject to an insignificant risk of change in value.

### **Provisions & Contingent Liabilities**

Provisions are recognised when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

### 33 Financial Risk Management-Objectives and Policies

The company's principal financial liabilities comprise borrowings, trade payables, other financial liabilities and financial guarantee contracts. The main purpose of these financial liabilities is to finance the Company's operations. The Company's financial assets include investments, trade receivables, cash and cash equivalents, other bank balances and loans. The Company is exposed to market risk and credit risk.

The Company has a Risk management policy and its management is supported by a Risk management committee that advises on risks and the appropriate risk governance framework for the Company. The Risk management committee provides assurance to the Company's management that the Company's risk activities are governed by appropriate policies and procedures and that risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

#### (A) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: currency risk and other price risk, such as commodity price risk and equity price risk. Financial instruments affected by market risk include FVTOCI investments and FVTPL investments.

##### (a) Foreign Currency Risk

The Company's listed and non-listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the investment portfolio are submitted to the Company's management on a regular basis.

##### (b) Equity Price Risks

The Company's listed and non-listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the investment portfolio are submitted to the Company's management on a regular basis.

#### Equity Price Sensitivity

The following table shows the effect of price changes in quoted and unquoted equity shares.

Particulars	31st March, 2020		31st March, 2019	
Investment	139.66		0.16	
Price Change	+5%	-5%	+5%	-5%
Effect on Profit before Tax	6.98	-6.98	0.01	-0.01

#### (B) Credit risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and financial assets measured at amortised cost. The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls. Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks. Other financial assets measured at amortized cost includes advances to employees, security deposits and others. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

##### a) Credit risk management

##### i) Credit risk rating

The Company assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets.

A: Low credit risk

B: Moderate credit risk

C: High credit risk

The Company provides for expected credit loss based on the following:

Asset Company	Description	Provision for Expenses credit Loss*
Low credit risk	Cash and cash equivalents, other bank balances, investments, loans, trade receivables and other financial assets	12 month expected credit loss/life time expected credit loss
Moderate credit risk	Trade receivables, loans and other financial assets	12 month expected credit loss/life time expected credit loss
High Credit risk	Trade receivables, loans and other financial assets	Life time expected credit loss or fully provided for

Based on business environment in which the Company operates, a default on a financial asset is considered when the counterparty fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognized in statement of profit and loss.

### **35 Significant accounting judgements, estimates and assumptions**

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods

#### **Judgements**

In the process of applying the accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

#### **Equity Investments measured at FVTOCI**

The company has exercised the option to measure investment in equity instruments, not held for trading at FVTOCI in accordance with Ind AS 109. It has exercised this irrevocable option for its class of quoted equity shares. The option renders the equity instruments elected to be measured at FVTOCI non recyclable to PL. Further company will transfer gain or loss on sale of equity investment from OCI to retained earnings”

#### **Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

#### **Defined benefit plans**

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

#### **Valuation of investment property**

Investment property is stated at cost less accumulated depreciation and impairment(Except Freehold Land). However, as per Ind AS 40, there is a requirement to disclose fair value as at the balance sheet date. The Company engaged independent valuation specialists to determine the fair value of its investment property as at reporting date.

#### **Fair value measurement of financial instruments**

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

#### **Depreciation / amortisation and useful lives of property plant and equipment / intangible assets**

Property, plant and equipment (PPE) are stated at cost less accumulated depreciation and impairment (Except Leasehold Land) amortised over their estimated useful lives, after taking into account estimated residual value. Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation / amortisation to be recorded during any reporting period. The useful lives and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation / amortisation for future periods is revised if there are significant changes from previous estimates.

### Impairment of non-financial asset

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Determination of the recoverable amount involves management estimates on highly uncertain matters, such as commodity prices and their impact on markets and prices for upgraded products, development in demand, inflation, operating expenses and tax and legal systems. The Company uses internal business plans, quoted market prices and the Company's best estimate of commodity prices, currency rates, discount rates and other relevant information. A detailed forecast is developed for a period of three to five years with projections thereafter. The Company does not include a general growth factor to volumes or cash flows for the purpose of impairment tests, however, cash flows are generally increased by expected inflation and market recovery towards previously observed volumes is considered.

### Taxes

The Company calculates income tax expense based on reported income. Deferred income tax expense is calculated based on the differences between the carrying value of assets and liabilities for financial reporting purposes and their respective tax basis that are considered temporary in nature. Valuation of deferred tax assets is dependent on management's assessment of future recoverability of the deferred benefit. Expected recoverability may result from expected taxable income in the future, planned transactions or planned tax optimizing measures. Economic conditions may change and lead to a different conclusion regarding recoverability.

Where the effect of time value of money is material, provisions are measured at present value using a pre-tax discount rate that reflects current market assessment of the time value of money and risks specific to liability. The increase in the provision due to passage of time is recognised as interest expense.

### Events after Reporting date

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.
